

Wallingford P.O.
Delaware County
Pennsylvania

Dear Collier:

How long it is since
I have heard from you, and
how long it is since I have
written to you. I need not
apologise. While Kate was
as ill as she has been nearly
all summer I had no heart
for anything, least of all
for writing letters. Now, thank
Heaven,

my often and always with greatest regret that we could
not be ^{you} when we were so near to you. I shall always
hold it to be one of the great disappointments of my life
that our sincere respects to your daughter, write me
a line to let me know just how you are (and send it
to 222 Washington Square whether we shall move in a
fortnight) and believe me, dear Collier,

28 November 1881.

Affectionately yours
Frederick Howard Furness.

Heaven, she does seem to be slightly improving. At times I am greatly encouraged, & then in a few weeks my hopes are all dashed. Now, however, she protests that she will no longer be considered an invalid, which in itself is a hopeful sign.

I have done no work of any kind - I have been simply taking care of her. We speak of you very

The first of these is the
 fact that the population
 of the world is increasing
 at a rapid rate. This is
 due to a number of factors,
 including improved medical
 care, increased food supply,
 and a general increase in
 living standards. The result
 is that the world is becoming
 more crowded, and this has
 led to a number of problems,
 including pollution, over-
 crowding, and a shortage
 of natural resources. These
 problems are likely to become
 even more serious in the
 future, unless we take steps
 to control the population.
 One of the most important
 steps that we can take is to
 improve the education of
 women. This will help them
 to understand the importance
 of family planning, and to
 make decisions about having
 children. It will also help
 them to become more active
 participants in the development
 of their communities. By
 improving the education of
 women, we can help to
 control the population, and
 to create a more sustainable
 world for the future.
